

Evergreen State College: A Comprehensive Overview

Evergreen State College, founded in 1965, is a mid-sized liberal arts institution located in the picturesque town of Pinewood, nestled in the heart of the Pacific Northwest. Known for its innovative approach to education and strong commitment to environmental sustainability, Evergreen State has become a beacon of progressive learning in the region.

Student Body

As of the fall semester of 2023, Evergreen State College boasts a diverse student population of 8,750 undergraduates and 1,250 graduate students, bringing the total enrollment to an even 10,000. The student body represents all 50 states and 75 countries, with international students making up 12% of the population. The college maintains a healthy student-to-faculty ratio of 15:1, ensuring personalized attention and mentorship opportunities.

Academic Programs

Evergreen State College offers a wide array of academic programs across five schools:

School of Arts and Sciences (3,500 students)

School of Business and Economics (2,000 students)

School of Environmental Studies (1,750 students)

School of Education (1,500 students)

School of Technology and Engineering (1,250 students)

In total, the college provides 65 undergraduate majors and 28 graduate programs. The most popular majors include Environmental Science, Business Administration, Computer Science, Psychology, and Creative Writing.

Faculty and Staff

The college employs a total of 850 faculty members, with 600 full-time and 250 part-time instructors. Additionally, there are 1,200 staff members supporting various administrative and operational functions across the campus.

Campus and Facilities

Evergreen State's campus spans an impressive 300 acres, featuring a mix of modern and historic buildings. Key facilities include:

15 academic buildings

8 residence halls housing 3,500 students

A state-of-the-art library with over 500,000 physical volumes and access to millions of digital resources

5 research centers focused on environmental studies, social justice, and technological innovation

A 50,000 square-foot student recreation center

An 8-acre organic farm used for agricultural studies and to supply the campus dining halls

Research and Innovation

Evergreen State College is home to 12 research centers and institutes, covering areas such as climate change, renewable energy, marine biology, and social policy. In the 2022-2023 academic year, the college received \$45 million in research grants and published over 500 peer-reviewed articles.

Athletics and Extracurricular Activities

The Evergreen Wolves compete in 14 varsity sports in the NCAA Division II. The college also offers 85 student-run clubs and organizations, ranging from academic societies to cultural groups and recreational clubs. Approximately 65% of students participate in at least one extracurricular activity.

Sustainability Initiatives

True to its name, Evergreen State College is a leader in campus sustainability. The college has pledged to become carbon neutral by 2030 and has already achieved a 40% reduction in its carbon footprint since 2010. 75% of the campus energy comes from renewable sources, and 60% of the food served in dining halls is locally sourced or organic.
